PRINCE2[®] 7
Project Management
global best practice
made better!

 PRINCE2[®]

Managing Successful Projects with PRINCE2 7

PRINCE2, the world's leading project management method, has evolved to meet the needs of the future. It has been updated to reflect the modern realities of managing successful projects in the 21st century, incorporating the latest processes, tools, and technologies to stay ahead of the curve. Best practice has now become even better!

What's new?

More human | Recognising the importance of human capital in project success, **people management** is now integrated into the PRINCE2 method.

More sustainable | Sustainability has been added as a seventh aspect of project performance, aligning projects with environmental and social responsibility goals.

More innovative | Embracing **Digital and Data Management**, equipping you with the right tools to keep your projects up to date in the digital era.

What's Improved?

More flexible | Enhanced flexibility and customisation with reduced rules and streamlined chapters while maintaining core elements of PRINCE2, showcasing the true value of the method to all projects, across all sectors.

More inclusive | Using simplified language and content throughout the official book, PRINCE2 7 is more accessible to all, including aspiring or experienced project managers.

More compatible | Increased compatibility with Agile, Lean, and ITIL, to boost overall project performance.

Who is PRINCE2 7 for?

Everyone!

PRINCE2 7 has been developed to be accessible to anyone, who needs critical project management skills, to deliver successfully in any role. PRINCE2 7 is for you, if you are:

- › A professional working in an organisation as Project Manager, using a specific Project Management method (certified or uncertified)
e.g. Project Manager, Programme Manager, Portfolio Manager, Head of PMO, Change Manager, Head of Operations, PMO Support, PMO Analyst
- › A professional who works in an organisation needing project management skills in your everyday work life
e.g. HR/Payroll Manager, Engineer, Architect, Service Designer, Software Developer, Marketing Executive, Finance admin, Product Manager

Benefits for you as a Professional

- Globally established and recognised
- Improved job opportunities and salary prospects
- Easy to follow, to implement and to apply
- Low barrier to entry
- Provides in-demand project management skills to those in non-project management roles
- Flexible enough to apply across a range of sectors
- Helps you know how to do your job well from day one
- Helps you work with other people in a project
- Equips you to deal with new challenges

Benefits for your Organisation

- A “how to” method that improves project success
- Saves time and money
- Helps deliver quality and compliance
- Provides a defined set of repeatable, scalable, flexible, and tailorable steps
- Improves efficiency
- Supports cross organisational collaboration
- Supports clear roles and responsibilities
- Provides a common language for projects across the organisation
